Estimated Allowable \$30,141.30	Estimated Patient Responsibility Pending benefits check
--	--

This estimate is based on the services and schedule planned today and is not a guarantee of what you will be billed. Actual charges can change with the number of visits, the services your provider recommends, and your insurance company's decision on your claim. If you have insurance, your benefits (deductible, co-pay, co-insurance and out-of-pocket maximum) determine what you owe.

Estimate for Services

Thank you for choosing Mental Health Center of America. We hope this **estimate** helps you plan for the care you need. Here are answers to common questions about it.

How was this estimate decided?

For each visit billed to insurance, in order:

$(\text{Allowed amount} - \text{remaining deductible} - \text{co-pay}) \times \text{co-insurance \%} = \text{co-insurance amount}$

$\text{Remaining deductible} + \text{co-pay} + \text{co-insurance amount} = \text{amount you owe for that visit, until your out-of-pocket maximum is reached.}$

Services you pay for yourself (self-pay) are owed in full.

How do I know if this estimate is correct?

This is a good faith **estimate** based on the information we had when your services were planned, including the benefits you or your insurer gave us.

Does my insurance plan cover these services?

Please contact your insurance company before your visits to find out what your plan covers. After your visits, your insurer reviews each claim and decides what it covers. You are responsible for any services your plan does not cover.

What if I change insurance or my insurance doesn't cover this care?

This estimate is valid only for the insurance shown. If your insurance changes, contact us for a new estimate.

Does this estimate show the final amount?

No. The final amount depends on the care you actually receive and on your insurer's decision. Other providers involved in your care may bill you separately; those amounts are not part of this estimate.

Definitions

Visit Co-Pay	The amount your insurance company expects you to pay at each visit.
Deductible	The amount you pay each year before your plan starts paying benefits.
Co-Insurance	The percentage of the allowed amount that your insurance requires you to pay.
Out of Pocket	The most you pay in a plan year; after you reach it, you no longer pay deductible, co-pay or co-insurance.
Estimated Allowable	The contracted (insurance) or self-pay amount for the services planned.
Your Responsibility	The estimated amount you will be responsible for paying.
